1. The stated battery capacity is the typical value. Actual battery life may vary depending on network configuration, usage patterns, and other factors, and may differ from theoretical estimates based on the typical capacity.
2. The SUPERVOOC™ word mark and logo are trademarks owned by Guangdong OPPO Mobile Telecommunications Corp., Ltd.
3. Product pictures are for reference only. Please refer to the actual product for actual specifications.
4. Image simulated for illustrative purposes. Actual image may vary depending on shooting conditions. Please refer to the actual product.
5. All displayed parameters based on tests performed in OPPO labs, not as a quality guarantee in daily use. Actual results may vary due to differences in the testing environment.
6. 5G connectivity may vary based on regional availability and local carrier support.
7. OPPO AI features will vary due to regional laws and cloud-based capability of the user's location. You need an internet connection to use AI-related features.
8. An Account login may be required to access certain OPPO AI features.
9. OPPO Reno15 Series supports IP68 (IP68 waterproof and dustproof rating, which can prevent splashing, water, and dust in normal use. Under controlled laboratory conditions, it has been tested to meet the IP68/IP69 level according to GB/T 4208-2017 (China) / IEC 60529 (International) standards. The IP68/IP69 waterproof conditions are as follows: [IP68] The phone is submerged in still water at a depth of 1.5 meters for 30 minutes with a temperature difference of no more than 5°C between the water and the product. [IP69] The device can also withstand continuous water jetting at 80±5°C temperature and 15±1 L/min for 2 minutes (up to 30 seconds in each jet angle of 0°, 30°, 60°, and 90°). The splash-proof, waterproof, and dustproof functions may decrease due to daily wear and tear. Please do not charge the phone in a damp state. Damage caused by immersion in liquids is not covered by the warranty. No protection against saltwater and other liquids, especially soapy water and alcohol. The SIM card holder must always be completely sealed against the device so that no water can penetrate through it.
10. When the input voltage is 200-240V, the maximum output power is 80W. The maximum output power may not be 80W (50W Wireless charging) depending on different voltage input in different regions. Please refer to the features in the actual version.
11. Product pictures and UI are for reference only. Please refer to the actual product for accurate results. For 10x to 60x zoom, AI algorithms enhance image resolution. For 60x to 120x zoom, on-device models reconstruct images at the pixel level, which can be turned off during shooting.
12. Actual shooting effects may vary depending on lighting conditions. Please refer to the actual product for accurate results.
13. The typical value of battery is 6200mAh, and the rated value is 6035mAh. All battery claims depend on network configuration and many other factors, actual results will vary.
14. "6-Year Fluency Authentication" means that through comprehensive technological optimizations in software and hardware, OPPO Reno15 Pro 5G has passed a 6 years anti-aging test in the professional testing environment of the OPPO Lab. While smooth sailing doesn't guarantee absolute absence of lag, actual experiences may vary due to factors like network conditions and individual usage habits.
