Net Weight	23.5kg	Max. Load	130kg
Charging Time	5.5H		

*Maximum range was tested with a full battery, a 75 ± 5 kg (165 ± 11 lbs) load, and at an ambient temperature of 25 ± 5°C (77 ± 9 °F), maintaining a speed of 15 km/h (9.3 mph) on pavement. Actual range may vary depending on rider weight, riding style, number of starts and stops, ambient temperature, road conditions, and speed.

*Maximum speed may differ by region due to local regulations. Always comply with applicable laws and ride responsibly.

NAVEE UT3 Pro

1350W Max Power

Meeting every daily need with the extra muscle to climb 24% gradients. Smooth, strong, and unstoppable.

Front Hydraulic and Rear Spring Suspension

Experience superior shock absorption with our hybrid setup. The front hydraulic fork eats up fine vibrations, while the rear sleeved spring handles the big hits, delivering an exceptionally smooth ride on any terrain.

Dual Disc Brakes for Reliable Control.

Front and rear disc brakes provide consistent, linear stopping power. It's about more than just stopping; it's about having the smooth, predictable control you need for a safer daily commute.

Ride More, Charge Less

A high-capacity battery delivering up to 75km of range. Whether it's a week of commuting or a long weekend trek, you have the power to keep moving without the range anxiety.

A Rear Step Built for Play

The rear step gives you a solid foothold when you lean in, carve, or push for sharper turns. It's a simple addition that brings a lot more flow to the ride.

360° Light System

6W Auto-Sensing Light + 2W Braking Light.
Front and rear turn signals improve awareness so you ride safer at night.

IPX6 Waterproof Protection

Built to handle heavy rain, deep puddles, and even high-pressure water jets.

130kg Max Payload

Inforced Frame Structure built from QsTE 420 car-grade steel, payload up to 130kg fitting high extended load and heavy rider.

Apple FindMy Integration

Work with Apple Find My, so you can locate your scooter even when it's offline or powered off. Google Find My Device support is coming soon via OTA update.

NAVEE Flylock

Once paired via Bluetooth, the scooter will unlock when the paired device is nearby and lock via app.

Intelligent Driving Assistance

Provides automatic assistance across climbs, descents, stops, walking speed, and uneven terrain, making every ride smoother and easier.

Smart NAVEE APP

The NAVEE App puts full control at your fingertips. Adjust energy recovery, lock settings, lights, and more—all in one place.
